# Strong Influence

For the past 89 years our family has bred production-pure genetics. We are proud to have had a influence through our bulls and cow families on the current genetic lists. Since "Legend" was heavily used in the 1980s through now, we, along with many of our great partners, have had much success with the bulls framing this ad. It is quite humbling to see not only how they have impacted the genetics in the U.S., but around the globe. We congratulate the AJCA on its 150<sup>th</sup> anniversary celebration.

*Other bulls of note:*

- 29JE3161 **H&B Alf Paragon-ET** with 2,655 daughters in 887 herds
- 29JE3252 **Schultz Declo Rescue** with 2,830 daughters in 567 herds
- 29JE3360 **Schultz Dudley Restore-ET** with 2,228 daughters in 354 herds
- 9JE129 **Schultz Lester Shane** with 665 daughters in 243 herds

CDCB 4/18 All BBR 100 JH1F

- 87 bulls with the Schultz prefix or bulls bred in partnerships with the L&H, H&B and Fairway prefix have gone to A.I.

In researching pedigrees of the Top 50 Active A.I. bulls 30% trace back to Schultz genetics within their first five generations, including the top three GJPI bulls in the breed – CDF Viceroy-ET, JX Schultz Volcano Harris {4} and River Valley Cece Chrome-ET. JX HARRIS {4} is the #1 PTA Protein and Milk bull\*.

\*The top 10 Active A.I. and Foreign Bulls Marketed in the U.S. (Herd Register Or Generation Count 4-6 And BBR 100 with NAAB status codes A and F) are listed for each evaluated trait.
